Professional Summary

Dynamic and results-driven **DevOps Engineer** with 2 years of experience designing, deploying, and securing cloud-native applications across **AWS**, **Google Cloud Platform (GCP)**, and **Microsoft Azure**. Skilled in cloud infrastructure automation, CI/CD pipeline development, and frontend engineering. Adept at implementing cloud security best practices, managing access controls, and optimizing system performance. Passionate about bridging development and operations to deliver scalable, secure, and user-friendly solutions.

Core Competencies

| Category | Tools & Technologies |
|----------------------------------|--|
| Cloud Platforms | AWS (EC2, S3, IAM, CloudWatch), GCP (Compute Engine, IAM, Cloud Build), Azure (App Services, Key Vault, Azure DevOps). |
| DevOps & Automation | Docker, Kubernetes, Jenkins, GitHub Actions, Terraform. |
| Security & Compliance | IAM, RBAC, Secrets Management, Key Vault, Cloud Security Posture Management. |
| Frontend Development | HTML, CSS, JavaScript. |
| Scripting & Coding | Bash, Python, YAML, JSON. |

Monitoring & Logging

Datadog, Grafana, ELK Stack, Cloud-native tools.

Version Control

Git, GitHub.

Professional Experience

DevOps Engineer**Digital Witch – Lagos**

May 2024

– *Present*

- Architected and maintained CI/CD pipelines using Jenkins and GitHub Actions for containerized applications.
- Provisioned and managed multi-cloud infrastructure using Terraform across AWS, GCP, and Azure.
- Implemented secure IAM roles, RBAC policies, and secrets management using AWS IAM, GCP IAM, and Azure Key Vault.
- Automated deployment workflows and reduced manual intervention by 60%.
- Monitored system health and performance using Prometheus and Grafana, ensuring 99.9% uptime.
- Collaborated with frontend teams to integrate deployment pipelines and troubleshoot UI build issues.

Frontend Developer**Future Lab, Ikot Ekpene – Akwa Ibom, State.**

January 2023 – December 2023.

- Developed responsive web interfaces using html, CSS and JavaScript for a client.
- Edited and optimized frontend code for performance, accessibility, and cross-browser compatibility.
- Integrated RESTful APIs and implemented secure authentication flows using OAuth and JWT.

Education**Bachelor of Science in Geology.**

University of Port Harcourt – Rivers State, Nigeria.

2013

Certifications

- AWS Certified Solutions Architect – Associate (*in progress*).
- Google Cloud Associate Cloud Engineer (*in progress*).
- Microsoft Certified: Azure Fundamentals.
- Certified Kubernetes Administrator (CKA).

Projects

Multi-Cloud Deployment Pipeline

- Built a unified CI/CD pipeline for deploying microservices across AWS, GCP, and Azure.
- Integrated cloud-native security checks and automated rollback mechanisms.

Cloud Security Dashboard

- Developed a dashboard to visualize IAM roles, access logs, and security alerts across cloud platforms.
- Single handedly build a front end e-commerce website using html, CSS and WordPress.
